

VETERANS
FLORIDA

Your Military Talent Pipeline

SkillBridge

Veterans Florida is the state-designated SkillBridge assistance organization. The federal program enables active-duty servicemembers within six months of separation or retirement to gain work experience through internships, fellowships, and apprenticeships with potential employers. Servicemembers maintain their DOD salary and benefits during training and can begin upon commander approval.

Career Placement

Our team of military veterans provides an individualized approach to meet your workforce needs by screening and matching top talent, including veterans, separating servicemembers, and spouses. Veterans Florida supports veteran-ready employers hiring for in-demand fields such as manufacturing, aviation, aerospace, engineering, supply chain management, public sector careers, and more.

Training Grants

Veterans Florida can help your business hire and train veterans, covering up to 50% of training costs, up to \$8,000 per veteran.

Ready to build your team with military-tested talent?
